

Discount Coupons Scheduler for WooCommerce

Discount Coupons Scheduler for WooCommerce allows you to create timed discount coupons for individual products in order to increase their sales. One benefit of using our plugin is the ability to create and manage coupons directly from the product settings. It is fast and easy to use, allowing clients to generate a coupon without navigating to another settings page, providing everything they need right from the product page.

Key Features

- Generate coupons for individual products: allows you to create personalized discounts for specific products, ensuring a targeted and strategic approach to your promotional activities.
- Enhanced Customer Engagement: with the plugin, you can engage your customers effectively by offering time-sensitive discounts.
- Fast and easy to use: swiftly generate coupons for individual products, ensuring a seamless experience for both you and your customers;
- Made for WooCommerce.
- Compatible with any theme.
- Easy Installation & Setup.
- Fully translatable into any language.

Plugin Installation

- - Log into your WordPress dashboard
- - Navigate to Plugins > Add New
- - Click on the "Upload Plugin" button and select
woocommerce-discount-scheduler-coupons.zip
- - Click Install Now
- - Click Activate

Usage

Usage:

- Create a new product and make sure to have a title, price and a product type;
- Check the "Extra Discount" product tab to create a new timed discount coupon;
- Include a Starting date/time and an Ending date/time for the running campaign;
- Set a Discount Type (Fixed Amount or Percentage);
- Check the "Enable the Discount" and then press the "Update product" button to generate a coupon;
- Coupon is visible in the edit product > Extra Discount tab or in single product view.
- Use the generated code in the Cart to get the discount.

Support

You get free 6 month support with this item. If you need some help or found a bug or issue with the plugin, you can always contact us here via email and we will respond to you within 1 day.

If you want to send us a message with an issue or a question, you can reach us at [Ticksy](#) to submit a ticket.
